**** Highest & Best 3/15 noon, offers presented to sellers Tuesday evening-we appreciate patience **** A true Brighton unicorn -- a ranch home with a walkout basement, beautifully set against a peaceful wooded backdrop. This 3-bedroom, 2.5-bath home offers a layout buyers search for but rarely find. The main living space features soaring vaulted ceilings and large windows that bring in natural light while showcasing the surrounding trees. A custom stone fireplace anchors the living room, creating a warm and inviting gathering space. The kitchen includes Merillat cabinetry, granite countertops, a convenient built-in desk area, and a cozy dining nook overlooking the backyard. The primary bedroom offers a private ensuite bath and walk-in closet, while two additional bedrooms provide comfortable space for guests, family, or a home office. With its desirable ranch layout and scenic setting, this home combines everyday functionality with the tranquility of nature just outside your windows. The finished walkout basement significantly expands the living space and provides incredible flexibility for recreation, hobbies, entertaining, or multi-purpose living. With generous open space already in place, the lower level easily accommodates game tables, media seating, workout areas, or creative workspace.
